

U.S. Government Humanitarian and Development Funding in Yemen

U.S. Humanitarian Funding in Yemen (Fiscal Years 2019-2020)

The United States is one of the largest donors of humanitarian assistance in Yemen, providing more than \$1.1 billion in aid since Fiscal Year 2019 to help address the world’s largest humanitarian crisis. This assistance includes food, medical care, safe drinking water, shelter, treatment for malnourished children, hygiene supplies and sanitation services, psychosocial services, protection, and other critical aid.

¹International Disaster Assistance (IDA) account and Title II

²Migration and Refugee Assistance (MRA) account

*This includes more than \$2.5 million in MRA funding that is directly supporting COVID-19 response efforts for refugees and recently displaced populations

**Of the more than \$1.1 billion provided to UN and NGO partners since FY19, the U.S. has suspended nearly \$50 million to NGO partners in northern Yemen that have been unable to operate independently due to Houthi interference.

U.S. Development Funding in Yemen

The United States’ development portfolio focuses on helping put the country on a stable path to recovery and preventing continued dependence on humanitarian aid. USAID’s development assistance projects in northern Yemen will pause up to \$23 million in funding as a result of ongoing interference in our partners’ operations.
